Re: 0971255048 -- Lake County
Great Lakes Naval Training Center
Superfund/Technical
Building 3304 Fire Fighting Training Area [FFTU] Workplan, review comments

Dear Mr. Messier;

The Illinois Environmental Protection Agency (the Agency) is in receipt of the above referenced document dated March 1998. All issues raised from review of the draft version have been addressed satisfactorily and this plan is therefore acceptable to the proposed scope of activities. The proposed schedule of activities is also approved.

It is requested that a weekly update of status be submitted to this Agency. The Agency Project Manager will make one (1) site visit during each phase of this project. Tentative dates for these visit are April 10 and April 24. Please contact me if these dates pose any scheduling conflicts.

It is requested that one (1) copy of this document be forwarded to complete the Bureau Files.

It is requested that a minimum of two (2) copies of the final report(s) be forwarded to this Agency for review and file. It is further requested that these reports included copies of all transport manifests, daily logs of site management personnel, and any incident reports filed during these operations.

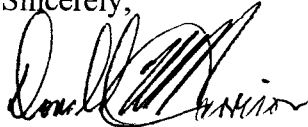

The Agency is grateful for the cooperative attitude your personnel have exhibited during the developement and implementation of the remedial activities associated with this site over the past few years. The environment created by this attitude has allowed this project to progress at a rapid pace while conforming to all enviromental statutes.
